

Directed Energy Weapon Solutions

Directed Energy Weapon Solutions

Power Source

- HGT1700 APU
- Turbofan Engine (HTF7000)
- Turboprop Engine (TPE331)

Energy Storage

- Battery Management and Integration (Li-ion)
- DC/DC
- Adaptive Power Controller
- Flywheels (Space)

Pointing and Stabilization

- High Performance Navigation Systems and Components
- GPS - Denied Capability
- D-Strut (Vibration Dampening)
- Advanced Inertial Reference Platform

Electric Power - Generator

- Additional 90kVA Generators
- Megawatt Generator
- 200 kVA Generators

Power & Thermal Management (PTMS)

- Pumps
- Fuel Exchangers
- New Design Scaled-Up Vapor Cycle System

AC-130 Notional DEW PTMS

- Auxiliary Power Unit (APU)
- Heat Exchanger
- Electric Controls
- Bleed Ducting
- Heat Exchanger Ducting
- Air Generation System Assemblies
