

# **BUSINESS JET CONNECTIVITY POWERED BY HONEYWELL'S JETWAVE**

**Honeywell**

# SEAMLESS CONNECTIVITY. ANYTIME. ANYWHERE. AT ANY ALTITUDE.

Connectivity is crucial throughout the entire flight to maximize your experience. From the moment you step on board, JetWave's powerful connection delivers high-speed internet for an in-home like Wi-Fi connection that powers all of your devices. Stay in control of your business, stay in touch with your family, stream live TV, follow your teams and even video chat. With JetWave, global connectivity from takeoff to touchdown is here today.

## TRACK WORLD NEWS

Monitor financial markets and the latest news from any device

## STREAM TV + VIDEO

Use your favorite streaming device or satellite subscription to access live TV

## FOLLOW STOCKS

Track the latest news and information in the marketplace

## MAINTAIN PRODUCTIVITY

Stay connected to your business with email and video conferencing. Even connect to your company VPN

## STAY IN TOUCH

Chat using your phone with video, text and VOIP phone calls

# GLOBAL COVERAGE YOU CAN COUNT ON

JetWave is the only way you can connect with the Inmarsat Jet ConneX Ka-Band network, the best broadband service available for business aviation. JetWave and Jet ConneX have you covered from the minute you climb onto the aircraft until you climb off at your final destination – you don't have to wait until you're at altitude to connect. Enabled by four Global Xpress satellites covering the globe (except the poles), the Honeywell-Inmarsat partnership has you reliably covered, even on transoceanic flights.

## JET CONNEX CURRENT GLOBAL COVERAGE MAP

This map is for general information purposes only and should not be construed or used as a legal description or representation. No guarantee or warranty is given that the map is spatially or temporally accurate or fit for a particular use. Coverage is subject to change at any time. Inmarsat shall have no liability for decisions made or actions taken/not taken in reliance upon the map or for any resulting losses suffered. Global Xpress coverage. April 2019.

## YOU MANAGE YOUR DATA COSTS

Honeywell offers a number of tools to help you manage the total cost of ownership for your JetWave-based satellite communication system. There are several ways to keep an eye on costs and ensure you do not exceed your plan limits or monthly budget, including:

- **Honeywell Forge - Data Control**, which gives you the power to allocate data so you can choose a less expensive data plan.
- **Honeywell Forge - Filter Feature**, which helps you ensure that all of the data sent and received from your aircraft cabin is used productively.
- **Honeywell Forge - Access Feature**, so you can allow passengers and charter operators to use the internet only within their agreed-upon budget while flying.
