

HONEYWELL MAINTENANCE SERVICE PLANS OFFERED BY JET AVIATION

PEACE OF MIND IN TURBULENT TIMES

Budgeting for aircraft maintenance is a complex task in the best of times. But with the global pandemic, ongoing economic uncertainty and continued business impact, predicting and budgeting for aircraft maintenance has never been more challenging – or as vital.

Fortunately, Honeywell's Maintenance Service Plans (MSPs) can relieve some of the pressure. Like extended warranty programs for your house or car, an MSP for your aircraft protects your flight department and your bottom line from the unexpected, letting you proactively manage maintenance costs and spread the projected cost of repairs over the course of the agreement.

Over the last 40 years, Honeywell's Maintenance Service Plans have become the industry's most trusted Business Aviation services programs. A number of MSP programmes are available today through Jet Aviation and, our experienced staff can help you select a maintenance coverage option tailored to your platforms, operations and requirements.

MAINTENANCE SERVICE PLAN – MECHANICAL COMPONENTS

- Full coverage on exchange
- Paid airfreight which excludes customs and any applicable import duties or charges
- Annual auto-renewal contracts with opt-out option
- Factory-backed support identical to your original factory warranty
- 24/7 AOG emergency service
- Field support system includes a global network of supply depots and authorized sales and service centers
- Fully-transferable agreement
- No lengthy aircraft downtime in case of failure
- New Full Platform Component coverage on Honeywell units

MAINTENANCE SERVICE PLAN – AVIONICS COMPONENTS

MSP Avionics Components is the most widely recognized maintenance offering in the industry, taking the uncertainty out of repair and maintenance costs for avionics on-board your aircraft.

MSP Avionics is expanding its range of product coverage to deliver a more comprehensive service to operators by creating valuable options including Consigned Inventory, Early Enrolment (ILOW), Obsolescence and Third Party Programs.

Benefits of the plan include:

- Full coverage on exchange and repair services
- Annual auto-renewal contracts available with opt-out option
- No-charge loaners · 24/7 AOG emergency service
- Paid airfreight which excludes customs and any applicable import duties or charges
- Factory-backed support identical to your original factory warranty
- Field support system includes a global network of supply depots and authorized sales and service centers
- Expanded Coverage for Honeywell and Non-Honeywell units
- Lower rates and additional benefits for aircrafts still under OEM warranty
- Fully-transferable contracts

GLOBAL SUPPORT YOU CAN RELY ON

Under an MSP agreement, Honeywell components are backed by their renowned Spares Exchange (SPEX) program, which provides LRU exchanges and rentals for both warranty and non-warranty situations. Supporting both general aviation and business aircraft since 1954, SPEX has the depth of resources and expertise only available from a proven leader in aviation products and services.

Honeywell's unmatched field support system includes a global network of supply depots, support centers and a world-class 24/7 Complete Customer Care Center. The rapid SPEX turn-around- time ensures that avionics covered under MSP are ready when you are. All units carry the latest mandatory modifications and are updated with the latest reliability modifications while in the repair cycle.
