

JETWAVE X FREQUENTLY ASKED QUESTIONS

At Honeywell, our goal is to help you make informed decisions about integrating JetWave X into your operations, ensuring you can take full advantage of its advanced connectivity features and promotional offers available.

Q. Which aircraft types are supported for JetWave X?

A. We are excited to announce that JetWave X will begin receiving certification in 2025 for various business aviation aircraft. This milestone marks a significant step forward in our commitment to enhancing connectivity and performance in the aviation industry. Stay tuned for more updates as we continue to innovate and deliver cutting-edge solutions for our valued customers.

AIRCRAFT CERTIFICATIONS TARGETED FOR 2025:

MANUFACTURER + AIRFRAME

Bombardier Challenger 601/604/650
Bombardier Global 7500
Bombardier Global 6000/ 6500
Bombardier Global 5000/ 5500
Dassault Falcon 2000
Dassault Falcon 900
Dassault Falcon 6X
Dassault Falcon 7X
Dassault Falcon 8X
Dassault Falcon 10X

AIRCRAFT CERTIFICATIONS TARGETED FOR 2026:

MANUFACTURER + AIRFRAME

Bombardier Challenger 300/350/3500
Embraer Praetor 500/600
Gulfstream G500
Gulfstream G600
Gulfstream G700
Gulfstream G800
Textron Cessna Longitude

Q. Where can I install Jetwave X?

A. When available in Q3 of 2025, JetWaveX will be offered to several different regional and global channel partners. Talk with your Honeywell channel partner today to plan your JetWave X install.

Q. Are there any promotions running in 2025?

A. Yes, Honeywell is currently offering a \$25,000 hardware trade-in credit and four months of complimentary Honeywell Forge Service, resulting in an estimated total savings of \$65,000 for the end user.

Q. Where is JetWave X covered?

A. JetWave X has true global coverage enabling connectivity anywhere you fly.

Q. How fast is JetWave X?

A. JetWave X offers impressive speeds, delivering download rates up to 200 Mbps, which is up to 10 times faster than first-generation satcom systems. This high-speed consistent connectivity ensures that passengers can enjoy activities like videoconferencing and streaming.

Q. Which Networks are Supported?

A. JetWave X will connect to the new ViaSat-3 Ka-band satellite network from the moment it comes online in 2025, an estimated two years before any other terminal for business jets.

JetWave X will continue to access the proven Global Xpress network, which plans to add new satellites to the GX constellation in the 2025-2027 timeframe.

Q. What types of connectivity packages are available?

A. JetWave X offers a variety of flexible service packages. Choose from a variety of service packages tailored to your needs, including Pay as you go (PayGo), Regional, Global, JX Unleashed, and new experience plans, ensuring you have the right plan for your operations.

Q. What is the upgrade path from JetWave-to-JetWave X?

A. The upgrade path from JetWave-to-JetWave X is designed to be straightforward and efficient. For existing JetWave users, the transition to JetWave X involves only minor structural and wiring modifications. This ensures minimal downtime and disruption, allowing users to quickly benefit from the enhanced capabilities of JetWave X, such as faster download speeds, advanced connectivity, and proven architecture.
