

# Full Primus Elite Cockpit Upgrade

Your Estimates Savings on Investment

Your investment in full Primus Elite (not including Advanced Features) may provide significant savings during the first three years of about \$165K.

And speaking of savings - operators can now take advantage of 100 percent tax write-off for component upgrades.

**YEARS**

**1** \$45K

Full year Honeywell Avionics Protection Plan (HAPP)

**2 3** \$20K

\$10K off HAPP each year

**1 2 3** \$100K

Weight savings of 50 lbs (average suite) and paper weight savings of 50 lbs saves about \$100K\* in fuel cost

**= \$165K**

**Bonus - Increases Aircraft Blue Book Value**

\*Actual fuels saving depends on a number of factors including aircraft type, actual weight difference, flight hours per year, etc.
