

THE CASE FOR OPERATIONAL EFFICIENCY WITH HONEYWELL

WHAT IT IS

Streamlining operations in aviation means capturing lean efficiencies. By focusing on quality, providing the ability to adapt and helping you eliminate waste and use resources effectively, Honeywell solutions can bring operational efficiency to your organization.

BENEFITS

- Boost profitability
- Increase dependability
- Reduce maintenance periods
- Increase on-time performance
- Improve pilot satisfaction
- Improve passenger experiences

TOOLS FOR OPTIMIZING EFFICIENCY

- Connected diagnostics to reduce troubleshooting time
- Ground handling solutions to speed turnarounds
- Flight apps for pilots
- Maintenance protection plans to control costs
- Planning tools to maximize fuel efficiency

KEY SOLUTIONS

- Connected Aircraft solutions
- AeroView Flight Deck
- SmartView® synthetic vision systems
- Engines
- Auxiliary power units (APUs)
- Health and Usage Monitoring Systems

5%

reduction in fuel costs with
Connected Aircraft solutions

45%

reduction in turbulence-
related incidents with IntuVue®
weather radar systems

35%

reduction in operational
disruptions with Connected
Aircraft solutions

20%

fewer maintenance test
flights with Health and Usage
Monitoring Systems

Honeywell

HONEYWELL EXPERIENCE AND EXPERTISE

- More than 100 years in the aviation, defense and space industries
- On nearly every aircraft in the world, and serving 500 airports globally
- Unmatched ability to connect aircraft, airport and ground services
- Critical implementation capabilities in installation, training and support
- A history of blending physical products and software to make more connected, efficient and productive solutions
- Analytics and software specialists focused on helping you take advantage of your data.
- Preferred communications and network provider for top OEMs

GoDirect[®] Connected Maintenance¹

35%

reduction in operational disruptions

1.5%

no fault-found rate

100%

existing data without costly retrofitting

10–15%

reduction in premature removals
