JET CONNEX **KA-BAND** **CONNECTIVITY**

Jet ConneX provides business jet operators with industry-leading connected aircraft capabilities. Using the Inmarsat Global Xpress (GX) Ka-band network, the service delivers the bandwidth and throughput to meet cabin passengers' business and entertainment needs.

JET CONNEX, THE ONLY GLOBAL HIGH-SPEED WI-FI CHOICE

Business jet passengers expect high-speed connectivity wherever they fly. That's what they get with Jet ConneX, which uses Inmarsat's I-5 satellite communications network to provide unequalled global coverage and network availability. With Jet ConneX, your passengers can videoconference and transfer large files, surf the net, stream videos and do anything else they can do on the ground – all at 40,000 feet.

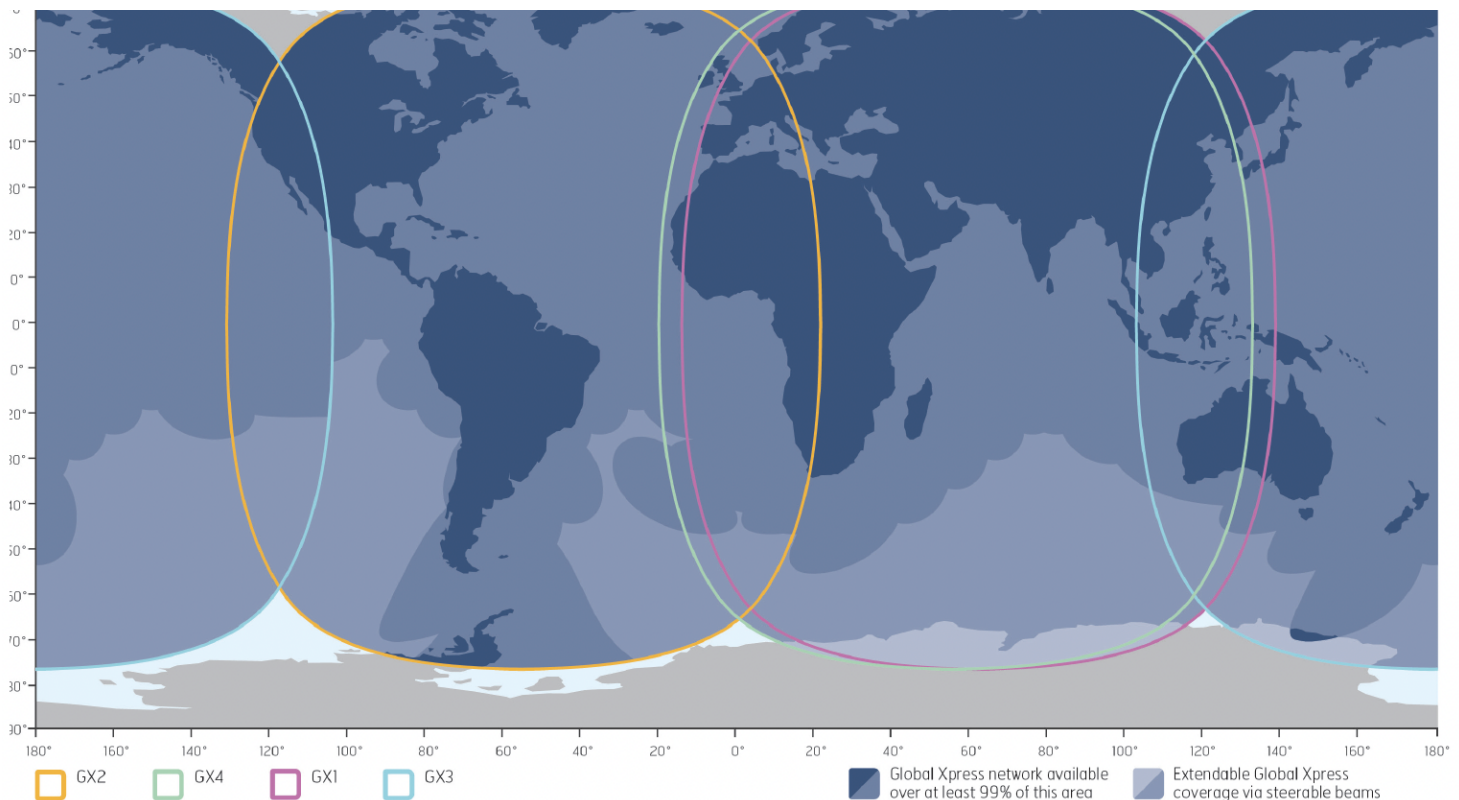

LOWER PRICES AND FASTER SPEEDS WITH NEW PLANS

As part of our end-to-end Honeywell Forge solution portfolio, Jet ConneX offers subscription-based airtime packages designed to match your mission, manage costs, and keep passengers happy. Operating on the GX Ka-band, Jet ConneX provides more affordable inflight connectivity with superior bandwidth efficiency and simple pricing options to meet your needs. The latest updates bring exciting enhancements, including uncapped speeds in the US, two new experience plans, and a PayGo option for new installations. These updates ensure faster, more reliable connectivity, tailored options, and greater flexibility and value for customers.

BENEFITS:

- Operates on Inmarsat Aviation's GX Ka-band network, enabled by four satellites covering the globe
- Worldwide coverage even when flying over the ocean
- Offers bandwidth and throughput like you enjoy on the ground
- Enables seamless, rapid handover between satellites

Inmarsat GX Coverage

JET CONNEX

Jet ConneX is part of Honeywell's growing suite of custom services, which include our Honeywell Forge portfolio. Honeywell Forge is Honeywell's industry-leading portfolio of services and applications that provide business aviation operators, flight crews and maintenance teams with the information they need to control their services and network.

| ALL JETWAVE 1 CUSTOMERS: | | | |

| JX-XP 1** | 90 GB | Global uncapped | 2 |
| JX-XP 2** | Unlimited | Global uncapped | 2 |
| JX-D | 90 GB | 12 Global / Uncapped in US | 1.5 |
| JX-E | 140 GB | 16 Global / Uncapped in US | 2.0 |
| JX-F | 180 GB | 20 Global / Uncapped in US | 2.0 |
| JX-Edge | Unlimited | 20 Global / Uncapped in US | 2.75 |

THE HONEYWELL FORGE ADVANTAGE

Honeywell Forge is Honeywell’s industry-leading family of services and applications that provide business aviation operators, flight crews and maintenance teams with the information they need to control their services and network.

| | |
|------------------------|---|
| NETWORK APPLICATION | Control links, devices and services on the aircraft to maximize cabin experience |
| TOOL KIT APPLICATION | Simplifies troubleshooting Satcom systems, reducing downtime and headaches |
| DATA CONTROL | Allows users to limit bandwidth consumption for video streaming, providing high-quality video at a lower cost and ensuring efficient use of data plans |
| DATALINK | Travel with ease knowing your safety services and cockpit communications are covered by one of the industry - leading datalink providers |
| HONEYWELL FORGE PORTAL | Manage your network and services to balance cost with performance |
| GLOBAL SUPPORT | Dedicated connectivity team who eat, sleep and breathe connectivity 24 hours a day, seven days a week, in locations around the world |
| WORLDWIDE COVERAGE | Jet ConneX provides consistent global coverage through Inmarsat’s advanced Ka-band high-throughput satellite network, ensuring reliable and high-speed inflight connectivity for passengers and operators worldwide |

HONEYWELL INTRODUCES NEW INCENTIVES FOR JETWAVE SYSTEM INSTALLATIONS ON AFTERMARKET AIRCRAFT

Honeywell is introducing new incentives for customers who install the JetWave system on aftermarket aircraft. Customers who choose Honeywell Forge as their service provider at the time of hardware installation will receive a \$150,000 credit and one month of free service. Additionally, there are significant hardware discounts available for new aftermarket JetWave installs. These incentives are designed to provide substantial savings and added value for customers.
