

Honeywell

HONEYWELL AEROSPACE TRADING (HAT)

Is a missing component preventing you from securing your revenue or stopping operations? Looking for **that** essential part?

Looking for a component?

Is a missing component limiting your ability to secure your revenue or threatening to stop operations? Honeywell delivers high quality pre-owned and/or new equipment for your retrofit or maintenance needs.

Serving the broad needs of the commercial air transport, business and general aviation, and defense industries, as well as original equipment manufacturers (OEM) and aircraft maintenance providers, Honeywell delivers exclusive product knowledge and global support to meet your current and future equipment requirements. With our extensive inventory of new surplus and reconditioned equipment, we provide you with more choices, faster service, and increased value across the entire family of Honeywell products.

Our pre-owned equipment is sent through a rigorous AS9100 certified process to verify that each product meets with the highest standards of quality for operation. All of our refurbished and new surplus equipment comes with a limited warranty¹. Additionally, each product features documentation, including FAA Form 8130, EASA Form 1, and CAAC airworthiness approval tags, and compliance with ASA-100 requirements, verifying that all previous repairs were conducted either by the OEM or at an FAA-approved facility.

Your Benefits

- Free up capital
- Reduced cost of ownership
- High quality new and reconditioned component
- Broad spectrum of avionics, mechanical components –both Honeywell and non-Honeywell products
- Specialization on APUs and wheels and brakes
- Availability of common as well as rare and hard-to-find parts
- Competitive pricing
- Short lead time with fast delivery

Honeywell provides an optimal solution for acquiring aerospace equipment when budgets are tight. With fast and efficient quote responses, we are uniquely able to provide you direct access to high quality, OEM-reliable parts and rare, unobtainable out-of-production aerospace equipment with a very flexible offering that includes exchanges. Your source for hard to find Honeywell equipment.

Our entire new and pre-owned equipment inventory is owned by Honeywell and our stock is available for immediate purchase. In addition, we offer buy back program for used Honeywell equipment or spares stock that can decrease inventory costs and create additional revenue for your operations. From avionics, engines, and auxiliary power units to starters, environmental control systems, wheels and brakes, and
