

The Bell 407 is considered to be one of the most versatile helicopters in operation today and Honeywell, in conjunction with Eagle Copters, is supporting operators searching for better performance at higher altitudes and temperatures.

THE HONEYWELL HTS900 ENGINE DELIVERS:

“ Our Eagle 407HP consistently gives us the performance we need to accomplish firefighting missions under the most demanding of conditions. ”

Richie Kittrell, Helicopter Express

85% of conversions so far have been for utility and firefighting operators including:

Elbow River Helicopters - firefighting in Alberta

32% more water bucket lifts per hour

42% additional time on station

Heli Niugini - utility operations in Papua New Guinea

Load almost doubled at 11,300ft (density altitude 13,000 feet)

Four drums lifted to 11,200ft instead of two with standard 407

Additional fuel capacity saved ferry time and costs to refuel

First and Last Name:

Phone Number:

Company Name:

Country of Operation:

Email:

Primary Mission:

	407 #1	407 #2	407 #3	407 #4	407 #5
Serial # (5 digit serial number)					
Typical Altitude of Operation (FT)					
Typical Ambient Temperature of Operation (F°)					
Typical Payload of Flights at Altitude (LBS)					
Monthly Utilization (Hours)					
Last Engine Overhaul (Month/Year)					
Anticipated Next Engine Overhaul (Month/Year)					

Upon completion of this form, this will be entered into the Eagle Copters drawing which will be hosted on **Wednesday, March 8 at 3 p.m. in the Eagle Copters Booth #8450 (MUST BE PRESENT TO WIN)** for your choice of:

1. Honeywell Sky Connect Tracker 3 installation kit and dialer. Antennas, cables, and installation labor and materials are not included. All Iridium services must be contracted with Honeywell
2. Up to \$5000 worth of "Sky Connect Tracking Services" only, including position, status, and special alerts, as well as all two-way messaging if so equipped. All free usage to be used within two years of activation. Unused services are forfeited. Continuation of service will be at standard or contracted rates in place at the end of the free service term. Free service, once activated, is not transferrable to another entity. Free service provided for only one Sky Connect tracking system. Service is transferrable to another device, but the expiration date remains based on original activation date.
3. A Truth Data license for flight data analysis for the period of one calendar year on a designated helicopter to include trend monitoring, event detection and customized reports.
